

Make your PC a State of the Art Digital Voice Recorder!

The stakes are high in business today. There is no room for error or ambiguity. That is why you need access to information that is accurate and easy to locate.

What's the solution?

YOUR KONEXX SOLUTION

The KONEXX USB Phone 2 PC – Advanced Edition is the ultimate low cost recording solution. Record telephone conversations, meetings or dictations digitally to the computer and file the recordings to the local PC or a network server for later retrieval and playback.

- ❑ Easily access and replay important details that transpired during calls.
- ❑ Great organizational tool that saves your recordings in folders and directories on your PC or a server just like your Word and Excel files.
- ❑ Ideal solution for verification of contractual discussions.
- ❑ Flexible software program allows recording of telephone conversations, dictation or meetings and interviews.
- ❑ Both sides of the conversation are recorded clearly.
- ❑ Installation is quick and easy.
- ❑ Compact size and lightweight USB interface with easy to use recording software.
- ❑ No computer sound card needed. The USB Phone 2 PC interface is the sound card.

Recording and saving your conversations is quick and easy with Konexx USB Phone 2 PC – Advanced Edition.

USB Phone 2 PC Interface

Phone 2 PC – Advanced Software

Features:

- ◆ Phone 2 PC hardware and software easily installs on an individual PC or notebook.
- ◆ Recorded files may be stored on the local hard drive or a network server.
- ◆ USB Phone 2 PC Interface connects your telephone with your computer enabling you to record telephone conversations as compressed wav files.
- ◆ Saved files can be e-mailed as attachments and/or archived for future reference.
- ◆ Bookmarks can be inserted during recording or playback for easy access or reference to important points in the recorded conversation.
- ◆ User can select “On-Demand” or “Voice Activated” recording.
- ◆ Auto file naming feature allows you to save files with prefixes and/or date/time as the file name automatically.
- ◆ No external power source needed. USB Phone 2 PC gets its power from the USB port.
- ◆ Easily switch from recording phone conversation to recording from the supplied external microphone.
- ◆ Includes an external microphone for easy dictation recording.
- ◆ Enables audio files to be played through the telephone set.
- ◆ Announcement Manager feature enables playing of computer audio files through the telephone set even while recording.

Specifications:

- Phone 2 PC software uses GSM 6.10 compression algorithms to keep file sizes manageable (1 hour of recording time = approx. 5.6 MB).
- Compatible with Microsoft Windows 98SE, Millennium, 2000 or XP Operating Systems (OS).
- Automatic Recording Level (ARL) ensures conversation is recorded clearly.
- Interface size: 3.0” (L) x 1.3” (W) x 1.0” (H).
- Weight: 1.5 ounces.
- Powered by computer’s USB port.
